

Final Project Progress Report

****Important**:** In your report, please 1) Make it very clear who on the team contributed what, and 2) Include the dates of at least **two** meetings you had with your mentor.

Team name: *Let('s)go*

TA name: *Anh Truong*

Note: when submitting this document to Gradescope, make sure to add all other team members to the submission. This can be done on the submission page after uploading.

Progress Report Instructions

Before writing your progress report, you should have met with your TA and talked through your progress.

Team contributions

Please describe in one paragraph (3–4 sentences) per team member what each of you contributed to the project so far.

We met Monday the 24th with our TA. We haven't met a second time because our next meeting is Monday the 1st.

Person 1 I webscraped Lego imagery from Flickr as well as from the Lego website and Amazon. I also have looked at various datasets of objects against white backgrounds. We also considered various ways of going beyond just a simple CycleGAN. I have started working on the model architecture.

Person 2 I worked on webscraping Lego imagery from Flickr with the flickr api and python. I also have researched datasets of natural objects the we will use. We also discussed how we can extend our implementation beyond just a simple CycleGAN. I started writing preprocessing code for the datasets we've collected to prepare for feeding into a model.
